Dear Dr. Berg:

We are pleased to inform you that you have been selected by your peers to be included in the *Best Doctors in America*® 2005-2006 database.

The *Best Doctors in America* database is a valued resource that contains the names and professional profiles of approximately 32,000 of the best doctors in the United States. An exhaustive peer-review survey by thousands of doctors determines the doctors included in the database. Only those doctors who earn the consensus support of their peers are included. Doctors cannot buy listings. For this reason, inclusion in the *Best Doctors in America* database is a remarkable honor.

The *Best Doctors in America* database is the preeminent listing of its kind. It has been featured on national television shows including *60 Minutes*, *The Today Show*, and *CNN Headline News* as well as in major print media including *USA Today*, *The New York Times*, *The Los Angeles Times* and *The Wall Street Journal*. The database has also received recognition in scores of major metropolitan magazines, as well as in major media outlets in Canada, Europe and Asia.

Best Doctors harnesses the knowledge of the 32,000 best doctors included in the database to provide a unique combination of medical experience, skill and insight that our clients can access to help them confidently manage complex medical problems. Today Best Doctors serves over 10 million people in 30 countries and has worldwide acclaim for successfully connecting patients to the best medical care.

In order to guide patients efficiently, we ask you, as a Best Doctor, to provide us with some additional information about yourself and your practices. This enables us to match your strengths, interests and expertise to the patients who need them. Please fill in the enclosed survey with the appropriate information and return to Best Doctors using the contact information below. If you have any questions, please contact us at [research@bestdoctors.com](mailto:research@bestdoctors.com) or at 800-675-1199.
